## SG 4/4

High performance professional 4-bar steam cleaner offering deep and hygienic cleaning without the use of chemicals.

### 1 2-tank system

- The fresh water tank can be continually refilled, since the boiler and tank are separate.
- Since only part of the overall volume is heated at any one time, it takes very little time for a consistent steam pattern to form.

### 2 VapoHydro

- Thanks to VapoHydro, the steam level can be infinitely adjusted to the cleaning task.
- In addition to the steam pressure, the saturation can be infinitely adjusted from full steam to hot water.

### 3 Accessory storage compartment

- The integrated storage compartment enables the storage of a variety of accessories.
- Small detailed accessories are always safely stored and do not get lost.

### 4 Hygienic cleaning

- Hygienic cleaning without the use of chemical substances.
- The avoidance of aggressive cleaning agents protects the operator and the surfaces treated.

## SG 4/4

- 2-tank system
- Short heating-up time
- Heating boiler filling pump
