PW 30/1 Power Brush

For Puzzi 200 & 300

Spray - Brush - Extract: All in one

Kärcher's new PW 30/1 power brush dramatically increases the performance and productivity of Puzzi 200 and 300 spray extraction machines. Using a PW 30/1 increases the performance of the Puzzi 200 or 300 by around 35%.

Features and Benefits:

- Motor-driven roller brush which cleans carpets more thoroughly and quickly than the standard Puzzi floor tool
- Built-in suction bar with transparent cover to extract dirty water
- 315mm width (PW 30/1)
- 4m or 7m power cable options to suit Puzzi 200 or 300
- Tough construction and compliance to EN 60355-2-68 electrical safety standard
- Overload protection to prevent damage to the brush motor

How to use the PW 30/1

1. Plug the power cable into the socket on the Puzzi machine, and connect the machine's suction hose and spray hose to the PW 30/1 suction tube.
2. The PW 30/1 should be raised slightly when in use (always pulling backwards), so that the two wheels lose contact with the ground. This position gives the best brushing and suction performance.
3. Spray the carpet by pressing the trigger on the suction tube and slowly draw the PW 30/1 backwards, thus spraying, brushing and then extracting the liquid and dirt all in one pass.
4. Repeat on spot stains or stubborn dirt, if necessary using a spot cleaner such as Kärcher Stain Remover Trigger Spray RM 769 (6.295-490.0).
5. If the brush becomes jammed by debris on the carpet, the overload protection device will cut the power to the brush to prevent damage to the motor or carpet. To reset, simply unscrew the protective cap and reengage the safety lock pin.

Technical Specification

	PW 30/1	PW 30/1
Max. area performance (m ² /h)	40 - 55	55-70
Weight (kg)	5.7	5.9
Power rating brush (W)	60	60
Cable length (m)	4	7
Dimensions L x W x H (mm)	350 x 260 x 835	350 x 260 x 835
To fit	Puzzi 200	Puzzi 300
Part Number	1.913-102.0	1.913-103.0
